

Checklist 2024 Foreigners / Non-residents

To be able to complete your tax return we need a lot of information. To help you to provide the right information we have created this questionnaire. We kindly request you to answer all the relevant questions and to provide us with the requested documents whereby copies are preferred.

The tax return will be completed based on the information you provide. By sending us this questionnaire you state that:

- the provided information is right to your knowledge, Belastingconsultancy MVE will not be liable for the correctness and completeness of the provided information.
- you accept our general conditions RB and fee schedule which can be found on www.belastingconsultancymve.nl

The completed questionnaire including the required documents can be sent to us in different ways.

Procedure

We confirm receipt of all the questionnaires and information we receive. If you don't receive a confirmation you can send an email to info@belastingconsultancymve.nl to request a confirmation. If necessary, we will inform you which documents are missing.

After we have received your information, we will deal with your tax return in order of receipt. The procedure depends on your personal situation in 2024.

You have been living in the Netherlands in 2024 the whole year

After completion we will send a copy to you together with a statement of agreement. If you approve the completed tax return, we request you to sign the statement and to return it to us so that we can file your tax return electronically. We will receive a confirmation of receipt from the tax office. The tax office will contact you and send you a (provisional) tax assessment when your tax return has been dealt with. Therefore, it is always important that your contact information is up to date. You will receive a tax assessment roughly between 3 months and a year after the tax return is filed.

You have been living outside the Netherlands (part of the year) in 2024

In this case a C form (resident outside the Netherlands the whole year) or an M form (resident outside the Netherlands part of the year) must be filed. A C form can be filed electronically. An M form however still must be filed on paper. Our experience is that if a foreign period is involved it takes the tax office more than a year to send you a tax assessment. This period can not be reduced by the tax office.

CITIZENS SERVICE NUMBER (BSN NUMBER)

If you intend to work in the Netherlands, you will need to register at the City Hall in the town/city where you are residing. You will also need to make an appointment at the City Hall to be issued your "Burger Service Nummer" (Citizens Service Number, formerly known as Sofi number). This BSN is your personal tax identification number and is required when you start working for registering your taxes and social security contributions to the Dutch government.

Provision of capital to an affiliated person or private limited company

If you make capital available to your own private limited company or to a company or private limited company of an affiliated person, you must declare that capital and the result thereof as results from other activities. This could include renting out business premises, a warehouse, independent workspace or having a claim. But other situations are also possible. Even if, under unusual conditions within the family sphere, you make capital available to a company or private limited company of a family member, the provisioning scheme may apply. We therefore ask you to inform us whether you have (financial) ties with 'affiliated companies or entities'.

If so, please furnish us with the following information:

- The name and address details or the name and registered place of business of the associated company or private limited company;
- An indication of the nature of association (for example: 'enterprise of partner' or 'private limited company of father');
- The value(s) as at 1 January 2024 and 31 December 2024 of the capital made available;
- The most recent Valuation of Immovable Property Act (WOZ) statement of the real estate that may have been made available;
- Revenues and costs.

If you are the spouse or registered partner of the associated person, the marriage articles are important for the tax return. This also applies if your spouse or registered partner makes the assets available to an associated person.
